

Summary table

No.	Protocol	Animal types	Max number of animals	Max uses per animal	Life stages	GA	Severity category
1	Superovulation	Mice	100	1	Adult	Yes	Mild
2	Embryo recipient	Mice	100	3	Adult	No	Moderate
3	Vasectomy	Mice	20	1	Adult	No	Moderate
4	Breeding and maintenance of genetically altered animals	Mice	2000	1	Embryo, Neonate, Juvenile, Adult, Pregnant	Yes	Mild
5	Administration of reagents to modulate the integrated stress response; and/or to trigger inflammatory processes	Mice	1000	1	Adult	Yes	Moderate
6	Chronic hypoxia or normoxia	Mice	500	1	Adult	Yes	Moderate
7	Phenotyping and pressure monitoring in genetic mouse models of pulmonary hypertension (moderate)	Mice	1000	1	Adult	Yes	Moderate
8	Phenotyping and pressure monitoring in induced mouse models of Pulmonary Hypertension (Moderate)	Mice	500	1	Adult	Yes	Moderate
