Are you new to rodent necropsy? Is rodent necropsy something you’d like to improve on?

How to necropsy is often something we learn as and when it is needed. It isn’t always explained to us the whys and wherefores and necropsy is simply seen as a task that needs to be undertaken.

The introduction to necropsy course will pull together the background information you might be missing, give you a greater understanding of necropsy and improve your professional development.

What’s included?

- Understanding the importance of necropsy
- Learning about tools and equipment
- An introduction to anatomy and physiology
- A step by step necropsy guide
- Explanation of terminology and definitions
- Necropsy practical
- 4 CPD points awarded for attendance

The cost per person is £120.
