This course comes  
with 6 IAT/LASA CPD  
points

Price: £198 including  
certificate

**UBS**  
TRAINING CENTRE

*“DOPS assessment is a tool used for assessing competency of staff members on a variety of different tasks and procedures. DOPS forms have been introduced to provide a structured, harmonised and objective method for assessing competency.”*

This online course focusses on training staff who are to begin assessing others using a DOPS system. This course includes all aspects of assessing including:

- Legal and compliance
- Planning for assessment
- What to look for during an assessment
- How to engage with a trainee to assess their knowledge
- Using DOPs paperwork correctly
- Importance of feedback and comments given
- DOPs form writing

The course will use a combination of course material, online quizzes, online live sessions allowing group work, problem solving exercises and group discussion.

As part of the course a series of guided assessments with an experienced assessor will be planned to build experience.

Assistance to begin using DOPs assessing is available for those new to the system or those with little assessing experience within a facility.
